Let Security Professionals *Be* Security Professionals

Solution Overview

SDA ThreatHunter™ delivers 100% 24/7/365 consistent coverage of your estate to bring huge cost and risk savings whilst making your organization much more secure, around the clock.

SOCAutomation's SaaS suite delivers easy-to-deploy-and-use security automation.

Using SDA ThreatHunter's huge library of automations, integrations and use-cases you will:

- ✓ drastically **reduce** security **exposure** and time-to-resolution
- ✓ **enable quick** and easy assimilation of legacy SIEMs and existing tooling
- ✓ **benefit** from fully-fledged Incident Response and 2-way ticketing integration

Don't just search – Automate!

Key Benefits

- **Embedded and supported elastic clustering is built-in – and integrates with existing elastic installations where needed for full flexibility**
- **Takes *real* Action on alarms – and from *any* source (EDR, SIEM, Firewall, NW etc.)**
- **Out-of-the-box advanced Threat Hunting with automated Incident Response**

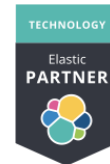

Efficiency and Consistency through automation
