DataHelix™ NDR *Advanced Detection & Threat Hunting*

The DataHelix Advantage

Continuous network Threat Hunting

↓

Automated remediation and case management

↓

Increase ROI Gain a competitive advantage

Empower your team with continuous Threat Hunting across network and SD-WAN environments, enabling rapid and accurate security decisions that protect business reputation and growth.

DataHelix™ NDR Benefits

Gain 100x More Coverage with Ease
Cross-correlate network threats with phishing, EDR, vulnerability scanners and third party tooling

**Streamline Security Workflow and Productivity**
Liberate your security resources with DataHelix™ ability to automate threat detection, prioritization, remediation and breach-process integration

Continuous Gap Analysis
Day and night discovery of 'blind spots' to give continual insights into improvement that are achievable with a human workforce

Gain the Competitive Edge
Increase ROI by leveraging DataHelix's power to not only match the machine speed of incessant attacks but detect *and* remediate against them

for Business
security-focused Deep Learning AI to deliver success and scalability

for Security Architects
to easily slot into any architectural scenario, new and existing

for Security Analysts
Virtual AI Assistant to empower productivity to new heights

Ready, set, automate

Just one short demo will show how DataHelix™ AI empowers your team and scales your business forever.
